VERDICT OF MURDER ASKED BY THE STATE

Defense Claims That Killing of Guinn Children Was Accidental and That Pirkle Was Not Drunk.

BY MARION KENDRICK. Constitution Staff Correspondent. Decatur, March 18 .- After delib erating since 12 o'clock today, the jury in the case of Thad Pirkle, charged with the murder of little Madge and Mary Frances Guinn when his car struck them New Year's eve on East Lake drive, was still deadlocked at 10 o'clock this evening and retired to resume consideration of the evidence at o'clock tomorrow.

At 6:30 the jury sent word to Judge John B. Hutcheson that fur-ther instructions were desired, and he called them into the courtroom, where he again charged them on murder, voluntary and involuntary manslaughter, and the methods of eturning their verdict. They then returned to an ante-chamber, where they remained in session until 8 o'clock and then went to supper.

In his talk at the beginning of the police board session Friday night, Maddox said that the trouble would not have reached its present proportions if Ellis Barrett, his opponent, had replied to the letter which Maddox says he addressed to Barrett last week offering not to seek re-election if Barrett would do likewise. He also said that the mass meeting in the fifth ward showed that he, Maddox, was the choice of the citizens for the place. "I don't want to resign, for I told those people I would stay by this job until Gabriel blows his trumpet. I can't say one thing here and

tell them something else." Mayor Key said at the meeting of the police board that he still believed Maddox should have resigned as he promised the mayor he would do for the sake of harmony in city affairs.

A., B. & A. Receiver Files Answer to Petition of Men That Order Reducing Wages Be Rescinded.

Bringing into question the constitutionality of the Newlands act, which provides for a twenty days notice to employees of railroads when a cut in wages is contemplated, and declaring that to have awaited the period of twenty days necessary for such notice, with a daily loss of \$4,500 accruing to the railroad company would have amounted to confiscation of the ompany's property, B. L. Bugg receiver for the A., B. & A railroad, Friday afternoon filed an answer, to a petition recently brought before Judge Samuel H. Sibley, of the United States court, asking that the receiver's order reducing wages

The answer filed by Colonel Bugg accompanied by an answer also from the Birmingham Trust and Savings company, creditor of the railroad, and the petitioner upon whose prayer the receivership was

The papers filed by the railroad receiver and the bank are preparatory to a hearing this morning at 9 o'clock of the petition of the railroad employees for a revocation of the wage reduction order, and the papers were filed by Brandon and Hynds for the railroad receiver and Arnold and Arnold for the Birmingham banking institution. The izations are Branch and Howard.

Freight Service Restored. In addition to the above develop ments Friday there was an announcement by Passenger Traffic Manager W. W. Croxton, of the A., & A. railway, that freight service has been restored on that railroad, and that a freight train was successfully operated Friday.

The answer to the petition of the brotherhood men, which asked for a revocation of the recent wage reduction that resulted in the present strike on the Atlanta, Birmingham and Atlantic railroad, is a lengthy paper, going into the history of the case from the start to the present time, reviewing all the actions up to the time of filing the answer.

The answer, which is in response to a petition filed by N. H. Evans, et al., representing the fourteen brotherhoods, not only questions the constitutionality of the Newlands act, as applied to the A, B. brotherhoods, not only questions the constitutionality of the Newlands act, as applied to the A., B. & A. case, but declares that the United States railroad labor board is without jurisdiction in the matter. The answer states that the wage board remanded the case for further conferences, and that no further conferences, have been held because of the fact that the wage board is without jurisdiction.

The employees took a strike gote before the wage reduction was announced, it is said, and the paper denounces the men for striking, saying that the walkout was wholly unwarranted. The

cross-examination of T. Dewitt Cuyler, chairman of the association, and his assistant, Robert & Binkerd, and the introduction of voluminous correspondence and reports of the committee into the labor

poard record. Today's proceedings marked the peginning of labor's main fight for continuance of the national es and working agreements now effect, the justness and reasonableness of which the board is now trying to decide in hearings which began January 10.

Labor's Eleven Points.

A basic program of eleven points on which labor would be willing to negotiate national agreements was laid before the board by B. M. Jewell, president of the railway employees' department of the American Federation of Labor, when the hearing opened today. Frank P. Walsh counsel for the unions immediately followed with an exhaustive cross-examination of Mr. Binkard and Mr. Cuyler.

adjustment had existed in the committee.

As a result of a bi-partisan board appointed at the suggestion of former President Wilson in March 1920, the national boards of adjustment created under federal control were continued with the approval of a majority of the labor committee, it was brought out.

Feared Dispute.

The majority of the labor committee stated that it feared failure to appoint boards as provided under the transportation act, would result in overloading the labor board with disputes and added that if the roads did not take advantge or the permissive features of the law by agreeing to adjustment boards, the efficiency of the labor board might be greatly impaired, resulting in decisions possibly adverse to the roads. The minority, headed by W. W.

resulting in decisions possibly adverse to the roads.

The minority, headed by W. W. Atterbury, vice president of the Pennsylvania, however, presented three reports, at different times, which pointed out that agreement to national adjustment boards, meant dealing with the representatives of organized labor and declared the non-union would not have a chance before such a board. Such a recognition of the unions, the report said, would lead to a closed shop and concentration of control by the unions. National boards, one of the reports said, meant national agreements and creation of uniform handling of alliabor matters, contrary to the miliabor ma

Mr. Waish clashed with his wit-ness several times and kept the big crowd in such confusion that the chairman several times threatened to clear the room. Mr. Cuyler, how-ever, maintained his objections to national agreements and blocked ev-ery effort of the unions to show that strife existed in the association over that question.

that strife existed in the association over that question.

It was expected, labor leaders said, to draw out from the executives placed on the stand an alleged divided stand on the national agreement question. Carl R. Gray, president of the Union Pacific, and W. W. Atterbury were on hand, but their appearance was postponed until tomorrow. MARINE WORKERS

TOLD OF SLASH.

New York, March 18.—Managements of the Delaware, Lackawanna and Western and Lehigh Valley railroads today formally submitted to representatives of their marine workers a schedule of wage reductions of 14 to 20 per cent effective April 20. The employees took the matter under consideration and will report back at another conference next week.

A conference between workers' representatives and the management of the Central railroad of New Jersey scheduled for today was postponed until next Monday, when the New York Central and the New York, New Haven and hartford railroads also will hold conferences.

The Philadelphia and Reading

hartford railroads also will hold conferences.

The Philadelphia and Reading Railway company, it was announced by the General Managers' association here, is preparing a notice advising of a general adjustment for all classes except unskilled labor, which was covered in a previous notice to take effect April 25. Eleven meetings will be hold between April 6 and 25 to discuss the readjustment with employees.

DISCUSSES CUT.

St. Louis, March 18.—Officials of the Missouri Pacific railroad and representatives of the system's unskilled labor conferred here today on a proposed wage adjustment, but adjourned without any action. Representatives of approximately 14,000 employees concerned attended. J. F. Murphy, general manager, said the agreement was mutual to defer action until both sides had an opportunity to gather data for a basis of discussion.

ERIE CUT.
Hornell, N. Y., March 18.—Clerks and station amployees of the Erie railroad through their representatives here today rejected the proposal of the railroad company to reduce wages approximately 20 per cent April 15. The answer was given after an extended conference with Erie executives headed by Robert W. Parsons, general manager.

TARGET OF UNIONS

Ing there was need for police. But it was to "protect" the propagandists. There was need for police this time, but the need was solely to direct the overflow crowds and maintain some semblance of traffic in the neighborhood of the great building.

The only flag to be seen in the vast auditorium was the stars and stripes. The national colors were draped on every box all the way around the interior of the Garcen, on every level from the floor to the roof and hung majestically from the roof and hung majestically from the roof and hung majestically from the rafters radiating from the center of the ceiling to the outer walls. The balconies and porticos on the exterior of the building was also profusely decorated with the red, white and blue. Neither the English, French, Irish or German standards or the flags of any other nation were to be seen. It was an American meeting for Americans. The band blared forth "The Old Gray Mare," and the doughoys were whopping it up when General Pershing's car drew up at the Twenty-Sixth street entrance and the general stepped out. Hardly had he walked inside the door of the audition, which was heard above the music of the band and everyone in the vast throng arose and cheered as Pershing made his way to the speaker's platform.

The controversy over these boards in the association's labor committee was brought out by cross-examination of T. Dewitt Cuyller, chairman of the association when he was recognized and a bugler sounded "attention," which was heard above the music of the band and everyone in the vast throng arose and cheered as Pershing made his way to the speaker's platform.

Pershing Is Affected.

The cheering lasted for two minutes during which time Pershing smiled out over the audience and was visibly affected by the honor paid him. He wore spectacles, something he has seldom done in public, the regulation army uniform with high cavalry boots and a Sam Brown belt.

Just as the singing ceased the bit older and a trifle thinner to nose who had not seen him since ney served under him in France, they served under him in France, and the lines in his face seemed a trifle deeper.

As the cheering died away the band struck up the "Star Spangled Banner," and the entire audience sang the words with an earnestness born of a great love of their country that was noble, inspiring and thrilling and served as a striking comparison to the insipid response to the restional anthem during the

Just as thes inging ceased the wounded waved their crutches at Pershing and bursting forth into a cheer started another demonstration. Taps were blown in tribute to the dead while the assemblage stood at attention in silent homage to the heroes who had "gone West" for their country.

Colonel R. W. Galbraith, commander of the American Legion, then arose and addressing the great gathering said:

Great Message Goes Out.

"A great Message Goes Out.

"A great message has gone forth tonight to the state, to the nation and to the whole world."

"Tell it to the Sinn Feiners and the pro-Germans," interrupted a voice from one of the balconies.

"Put him out," answered the high-pitched voice of a girl that was heard all over the hall.

The disturbance passed off quickly, however, order was soon restored and Colonel Galbraith continued:

"Tonight in this great hall, with 50,000 more persons massed outside the building," we worship at the shrine of America and give our anshrine of America and give our answer to those who would destroy our country and separate us from our allies, with whom we are united by the blood of our fellows.

Harding Faces New Problem in Making Peace With Germany.

Washington, March 18. - Allied llied occupation of additional German territory is understood to have presented to President Harding a new problem arising from a rela-tion of these changed conditions to previous plans for early declara-tion by congress of the ending of the state of war between the United States and Germany.

Some congressional leaders who Some congressional leaders who all along have been for a peace resolution still think that solution should be applied as soon as possible. Other leaders, however, who are known to be very close to the president, fear that it would cause embarrassment to the nations with which the United States was associated in the war and should be deferred until the situation in Germany which caused the occupation had clarified itself.

President Harding is represented as having approached his study of the question with the view that the United States should exercise caution in whatever steps it deterines to take in order that there should be no complications of the already difficult situation faced by the allies.

In line with this viewpoint atten-

to reparations payment.

President Harding's position may not be revealed until his message is delivered to the sixty-seventh congress at the opening of the special session April 11. Before the new dispute with Germany arose it had been expected that an important place in that communication would be given to arging adoption of the resolution to end the war state. Owing to the changed conditions, however, some congressional leaders were doubtful as to what the president might then have to say on this point.

smugglers, in which three were wounded.

The Mexicans opened fire on three American immigration officers who had found the Mexicans fording the Rio Grande, which is about 50 yards wide at that point. The return fire of the immigration officers apparently wounded one of the three Mexicans wading the river, and was immediately answered by riflemen concealed in the bushes on the Mexican side.

Five more inspectors and 100 soldiers of the Forty-eighth infantry from El Paso responded to a call for assistance, and for more than an hour the firing continued briskly, the Americans firing at the flashes of the Mexican guns. An occasional scream of pain from the Mexican side indicated that the American fire was not without result.

The three Americans wounded are Private Koller, company D, 48th infantry, shot in left arm and scalp wound: Private Petroski, shot through hip, believed to be serious; Joseph Thomas, immigration inspector, scalp wound.

ALLEGED BEATING TO BRING PROBE

Savannah, Ga., March 18.—(Special.)—The American Legion posthere is interested today in the anyouncement that vigorous investigation will immediately be made into the charge that a guard at the "Brown Farm," the local place of serving sentences imposed by the recorder's court, beat Joseph S. Eschebarne, of Los Angeles, a shell-shocked, maimed veteran of the world war, who had been sent to the farm for thirty days on a charge of loitering.

County commissioners will tomorrow probe the alleged whipping to the bottom. Eschebarne, wounded and shell-shocked so that he was permanently impaired, mentally as well as physically, it is said, wandered from his home in Los Angeles, turned up in Savannah, without funds and even without papers to identify him. He was picked up by the police and given a term. It is charged that he was so severely beaten by a guard that he had tdy be brought to the city for treatment. Investigators declare his back shows evidence of a severe beating. As soon as the recorder learned of the affair he ordered a release and directed that the ex-soldier be sent to the Marine hospital.

Eschebarne had not told the court he was an ex-soldier.

R. L. Neese, Taxi Driver, Is Assaulted by Three Soldiers Friday.

R. L. The soldiers put him out of the car and drove away in the aucomobile, leaving him unconscious beside the road.

will Fight Case.

Ellis Barrett, who was Mr. Maddox's opponent in the council race which resulted in Mr. Maddox being sworn in despite the admission of an error in the ballot count, has signified his intention of fighting the contention of Mr. Maddox to "the last ditch," carrying the matter into the courts if necessary.

The fifth ward citizens, at their meeting Thursday night, passed resolutions declaring their faith in Reading Clerk Barnes, of the city government, to whom the error in counting the votes was attributed. The condemnation of the city government by various people was also condemned.

Letter of Mayor. Neese recovered consciousness and attracted help. He was brought to Grady hospital, where he is in a serious condition. He had been struck on the back of the head by a blunt instrument. He had been hired at the office of the Atlanta Taxi company, at 56 Madison avenue, and the three soldiers said they wanted him to take them on the Campbellton road, to visit some girls there.

When the party was far out on the road, one of the occupants of the rear seat of the open automobile knocked Neese unconscious. They threw him to the side of the road and drove on in his automobile. Call Officers J. E. McDaniel and W. F. Bullard were sent to investigate the case. No attempt was made to rob Neese, it was said.

HUNDREDS ATTEND B. Y. P. U. MEETING AT FORT VALLEY

March 18, 1821.

Mr J. W. Maddox, 93 Wellington Street, Atlanta, Ga.

My Dear Sir: I-learn with syrprise and disappointment that you will not tender your resignation as police commissioner from the fifth ward. This conclusion you have reached after having made the public statement several times that you would resign, and after you had assured me personally that you would resign.

I realize that you have submitted this matter to your neighbors and associates of the fifth ward, and that a substantial group of them have vindicated you and indorred your position. This vindication by your friends should be, and I know is, greatly appreciated by you. The ground, however, upon which I suggested to you that you resign was the ground that by so doing you would remove yourself as a disturbing factor in our political life, and would eliminate from the minds of a great many people a suspicion that the proceedings of the city council, in which you were declared elected, were not clean, fair and according to law, and if you persist in retaining this position this suspicion, in the minds of many, will remain. I know, of course, that this incident has been seized upon by many who are merely enemies of the city government and the city administration.

Must Be Satisfied. Fort Valley, Ga., March 18.—(Special.)—Featuring the day's session of the B. Y. P. U., attended by hundreds, here today was the address of Dr. William Russell Owens, of Macon, on the subject of "Your All upon the Altar." Fort Valley business section showed banners of welcome in green and gold, and all the stores were decorated with the stores were decorated with the first interest of every citizen of the peach city.

The singing, lec by Q. L. Fry, is a great feature of the second annual convention, and the spirit of the meeting is fine. Soul winning is the theme.

The conferences which were to have been held were dispensed with and at 4:30 o'clock 50 automobiles carried nearly 300 delegates for a ride through the peach orchards. M. P. Price, a wholesole grocer of Douglas, spoke on stewardship and his address was one of the best of the convention. Mrs. C. L. Christian, of Thomaston, presented the junior appeal by talking on the subject. "First Impressions Most Lasting."

On Friday night Herbert Bryan, of Riddlesville, led the devotional service, and about ten Mercer university students presented a very interesting play. Dr. J. W. Ham, of Atlanta, made a talk Friday night, and special music was Hoffman Makes Answer.

Councilman W. D. Hoffman, one of the members whose vote was counted for Mr. Maddox when it was cast for Ellis Barnett, his opponent, in the following statement Friday answered the commissioner's attack made on him Thursday night at the fifth ward meeting, when he asserted that Councilman Hoffman sold an elevator to Grady hospital, thereby deviating from the principle that members of council should have no financial dealings with the city.

Mr. Hoffman said:

The Otis Elevator company sold elevators to the city of Atlanta long before I was a councilman, or even a resident of the city.

The only elevator equipment they have which is working properly was built by our company.

The Nurses' home elevator was taken up. Friday night, and special music was Friday hight, and special music was a feature.

Prominent guests are: Dr. and Mrs. Foster, of Bessle Tift college; Dr. Aquilla Chamle, of Hawkinsville: Rev. and Mrs. Martin Wood, of Macon, and Rev. Tippett, of Vienna. A big barbecue spread was served on the church lawn at noon.

-Come in blue, and brown, mostly. Some of the dresses have scalloped overskirts; some have full gathered on overdrapes; still others have rows of cable cording to make the skirts stand out; and then there are some which are scalloped.

-In dear little basque effects or straight lines with loose ribbon girdles. It takes dresses like these to win the hearts of 14 and 16-year-old girls and their \$19.98 price will win the approval of you mothers.

Easter Coats in 6 to 14' Year Sizes--They're as Styleful as Mother's!

-Made of the same materials you find in the Easter coats that women are buying-and the styles are ver much the same, too.

-Velours, homespuns, Polo cloth, flannel twill and wool jersey. In cute, flare-back styles or styles with balted fronts.

-They're trimmed with good looking pockets. Some have fancy machine stitching and scroll em-

-So much for the coats. Now for the capes. They're of solid colored materials with cute checked vestees. Clever as can be.

-Sizes 6 to 14 years are priced \$8.95 to \$29.75. -Junior coats and wraps are \$25 to \$50.

Children's Easter Dresses of Daintiness Are These Dresses of Crisp Organdy

-They look like fresh Easter flowers as they hang on their racks here waiting for that little daughter of yours to come in and signify which one she prefers.

See the material of themfine imported organdies. In the softest, loveliest tints of orchid, tan, lavender, Nile, yellow or light blue.

-They're ruffled and picoted 23 sashed adorably. Some have three-quarter sleeves; the rest are short. Some are overskirted. Some have the dearest little lace-edged berthas. Others have quaint Dutch necks.

-They'll fit little misses of 2 to 6 years of age. And they're the kind of frocks any mother would choose for an Easter dress. Not expensive, either, when their price tickets read just \$5, \$5.95, \$7.50 and \$8.95.

Girls' Pongee Dresses Are Pretty and Serviceable as Can Be!

-You'll love the way these little dresses are made-for you'd never expect such prettiness of styling in a pongee dress. They come in yoke styles with hand-smocking and embroidery work in front, which gives the dress an empire waist effect. The collars and roll edged cuffs are hand-

in brown and bright blue silk. -They're made to fit little girls from 2 to 6 years old. They'll be fine for Easterand when Easter's gone and they've become soiled - they launder beautifully, y o u know! They're priced just

LAWYERS IMPRESSED FOR SERVICE ON JURY

Threatened disagreement of a jury in the uncontested divorce trial of Thomas E. Rowden against Mra. Kate T. Rowden, caused the withdrawal of the case by consent of Judge John T. Pendleton on Friday. Two lawyers, H. A. Allen and S. M. Castleton, were impressed for jury duty, although not regularly selected, and are supposed to have had some connection with the threatened disagreement of the jury.

Two jurors were found missing, and the lawyers were allowed to take their places, as the case was uncontested. Attorneys Branch & Howard, appearing for Rowden, agreed to allow the two lawyers to act as jurors. In the trial, Rowden claimed his wife nagged and quarreled with him, deserted him several times, and was continually getting into debt. When the jury had been out some time after receiving the case, attorneys for Rowden received permission to withdraw it, as they feared a disagreement.

Interesting Paper Read at Morning Session by Dr. Stewart Roberts.

Members of vital statistics bureaus of ten southern states held the opening meeting of their twoday conference at the state capital Friday morning, at which interesting discussion was made on various questions of birth and death sta-

tistics from the states represented At the meeting, which is the first of its kind ever held in the south, a paper was read by Dr. Stewart Robert, of Emory university, on the importance of statistical data to medical men. The address made such a fine impression that Dr. Roberts was given a rising vote of thanks and members of the conference announced that they would take copies of it with them to their respective states and publish it for circulation among the medical profession.

An important address will be made at the Saturday meeting by Br. W. A. Plecker, of Virginia, who will go into a discussion of the negro midwife problem. Dr. Plecker is considered an authority on the subject, and was associated with the medical commission that instigated the enactment of laws on the subject in his home state.

Dr. R. W. Hall, of Jackson, Miss., will explain to the conference the system used of obtaining vital statistics in Mississippi, where, it is said, vital statistics records are compiled with more compileteness than in any other southern state.

Other features of the program Friday included addresses by representatives of the states of Alabama, Kentucky, North and South Carolina, Florida, Tennessee and Louisiana. At the meeting, which is the

Solicitor Boykin Probing Activities of Alleged Secret Order-Fourth Man in Case Sought.

J. C. Thomas, who, according to his own confession, cut to death Fred Thompson near Lakewood last Friday night, will, through his attorney, J. H. Leavitt and Lowndes Calhoun, seek release from the Fulton county jail on bond pending grand jury action and his trial before the state courts.

This was made known Friday when Attorney Leavitt said that unless it could be arranged for some immediate disposition to be made of his client's case, he would ask a writ of habeas corpus to deter-mine what, if any, bond should be

In this connection 'it became known that Solicitor General John A. Boykin is probing into the reported existence of a secret organization, of which Homer Pitts and Ed N. Shute, held under bonds as material witnesses in the slaying, are said to be members, as was also the slain man-Fred Thompson.
All facts bearing upon such an organization will be brought before the grand jury, which will consider

the question of indicting all in the alleged conspiracy to lure Thomas out into the woods for the purpose of administering to him a whipping. Valuable information concerning the identity of the fourth alleged conspirator, who is reported to have been seriously cut, is believed to be in the hands of Solicitor Boykin, and investigators from his office. Several anonymous communications indicating that this man is receiving medical treatment in Atlanta where he is furnished protection

where he is furnished protection, has been received at the solicitor's office.

However, it had been indicated by attaches of the solicitor's office préviously that they believed they had the man under surveillance, and that his arrest would probably be made within a short time.

Other parties who are alleged to have received threatening letters obuched in similar terms to those received by Thomas, and threatening punishments, will be grilled by Solicitor Boykin, in an effort to ascertain the character of this alleged secret organization and its purposes.

The first conference of directors and sepresentatives of public health laboratories in southern states opened Friday at the Piedmont hotel for a two-day session. The meeting was called to improve the policies and conduct of public health laboratories, and co-ordinate the efforts of the individual states for mutual improvement.

Representatives from Virginia, Kentucky, North and South Carolina, Mississippi, Alabama, Georgia and Florida are in attendance. A temporary organization was made at the first session, with Dr. C. A. Shore, of Raleigh, N. C., as temporary chairman, and T. F. Sellers, of the Georgia state laboratory, as temporary secretary.

H. C. Woodfall, of Atlanta, read a paper on the relation of water supply control to state board of health laboratories at the Friday afternoon session. Others who spoke were: Dr. B. L. Arms, of Jacksonville, Fla.; Dr. F. F. Russell, and Dr. C. A. Shore, of Raleigh, N. C., Dr. Shore also spoke at the morning session on Friday, as did Dr. Frederick A. The state contended that the killing was unjustifiable, while the defense maintained that the shooting was in self-defense. Assistant Solicitor E. A. Stephens prosecuted the case while Attorneys Lawton Nalley and H. W. McLarty represented the defendant.

"Loiterers are crime breeders and the police department is to be commended for the crusade against them. This is no time for them to expect sympathy from either the courts or the police." Judge Woodali announced, as he imposed fines ranging from \$26 to \$51 upon them.

The defendants are said to have been apprehended upon the streets at late hours Thursday night and unable to offer a satisfactory explanation for "loafing."

SAVANNAHAN SLAIN BY AUTOMOBILE TRUCK

Savannah. Ga., March 18.—(Special.)—On the twenty-fifth anniversary of his marriage, William C. Edwards, an insurance man, 47 years old, died this afternoon from wounds received when a Savannah Baggage and Cab company truck hit him, throwing him to the pavement. With his skull fractured, he was taken to a hospital where he died. When hit he was on his way down town to purchase some final necessaries incident to the silver wedding anniversary to have been given tonight at his home.

FAKE ADVERTISING MAN BUSY IN CITY. ASSERTS CROWLEY

Unauthorized solictation of advertising for a supposed program of convention of the Associated Advertising Clubs of the World, to be held in this city in June. was revealed in a warning issued Friday by W. V. Crowley, chairman of the program committee. He received reports that a man had called on several business men of the city, asking them to advertise.

The man exhibited a supposed sample of the program, which purported to show that Fourth National bank, the Atlanta Trust company and the Citizens' Southern bank and other institutions had contracted for advertising space. The official program of the convention. Mr. Crowley declared, will not contain any local advertising, and business houses approached by the bogus solicitor are urged to report gus solicitor are urged to report the fact to the secretary of the 1921 convention board.

INCORPORATION ASKED BY BOTTLING COMPANY

The Lime Cola Bottling company, with a factory at Boulevard and Auburn avenue, applied Friday for incorporation in Fulton county superior court, with a capitalization of \$75,000. The incorporators are C. M. Pike, for mayor of LaGrange; G. C. Hunter, J. H. Wright. F. J. Pike, J. A. Pike and J. C. Hunter, all of Troup county.

The syrup for the concern is to be made at Montgomery, Ala, where a factory is nearly completed, and only the bottling operation will be performed in this city. The product will be a soft drink. The capital will be in shares of \$100 par value, and half of the \$75,000 capitalization has already been paid in. The incorporation petition contained a request that the capitalization be allowed to be increased to \$300,000 if desirable.

SIMPLY STATED!

"Declaring that he would serve the next three years on the police board whether council elected him or not, and stating that the charges against city officials advanced Solicitor John A. Boykin are nothmore than attacks on the present government by friends of the ommission government movement, James W. Maddox addressed 200 citizens of the fifth ward at the English avenue school Thursday evening. He told them he had no intention of resigning, and received their almost unanimous indorse-

The above statement of the address of J. W. Maddox, delivered Tuesday night in the Fifth Ward, is not from The Constitution's reort of that occasion,

Mr. Maddox is evidently not kindly disposed to The Constituion and lest it may be misunder tood that we do him an injustice, e reproduce this extract from the sport of an afternoon contemorary so that it may not be said hat The Constitution has misrepesented Mr. Maddox's position. Mr. Maddox admits that he re-

beived only 16 votes in council, en it required 17 to elect. He was sworn in while the vote as under challenge, the recount howing that two votes that had en necorded for him had been ast for his opponent.

The scandal that ensued is Declaring first that he would reign and not continue in an office which he was not elected, he now defies council and challenges public sentiment in the statement that "whether council elected him or not, he will serve the next three years on the police board."

Proudly typifying himself as the exponent of the city government, he declares that Solicitor Boykin's protest against him is "nothing more than an attack on the present government."

God forbid that those who repre sent the city government of Atlanta should stand for the accuracy of this statement!

Plunging behind the skirts of Chief Beavers, Mr. Maddox declares that this is a fight on the chief when the truth is, not one word has been said against the chief, whose honesty is conceded; and has been commended by two grand juries, by public sentiment, and by The Constitution, and who is in nowise responsible for the criminal conduct of the detective department, which, for obvious reason, has been carefully cor

ralled against his jurisdiction. Mr. Maddox claims the right to serve as a police commissioner simply because he has been "sworn in," when he admits that he did not receive the vote required by law. But, he says "if there had been a tie the mayor would have voted for me, so I am

entitled to the place." The Constitution will not debate this argument other than to say that if this position is sustained then democracy is a failure, and no man's life or property can be considered safe in a community that operates on this basis, for it means that the first man who "gets in" by taking the oath of of- again." fice for which he was not elected, may stay so long as he can prove that he took the oath of office

WHILE WE LOOK ON!

Great Britain proposes, so Lloydeorge says, to levy an impost duty of 50 per cent on all German merchandise reaching British soil. It may be that such a heavy duty would be destructive—that to impose it would savor of a pelicy that would endanger the best interests not only of Germany, but of the allies and the world.

Germany contends that it would; France and Great Britain, that it would not. Whether it would or would not, the United States has as much at stake in the outcome of any settlement that is made as any other nation.

And yet, with as much at stake as any other nation, this country is without power to participate in the formulation of the terms of settlement of a situation which we did as much as any other nation to bring about.

We refused to join our war associates in following the war settlements to their logical conclusion, and assumed an incongruous and insufferable position of isolation and aloofness from the rest of the world, while our own interests were at stake.

We stand in the position of having helped, more, perhaps, than any other one nation, in ending the war and in bringing about the post-war conditions, then of packing up our belongings, turning tail upon the chaotic world and leaving the other powers to effect settlement and finish the job!

It may be that France and Great Britain and Italy, Belgium, etc., are too close to the situation so intimately affecting them to approach its adjustment in a spirit of "wisdom, justice and moderation."

It may be that their spirit has been unduly embittered and their sentiment distorted by reason of their propinguity to the scenes of holocaust and by their personal suffering, so that they are not capable of rendering fair, dispas sionate judgment.

The United States, too, has suffered; but we are far enough removed from the actual scenes of conflict to view the situation in says: broad perspective, and, while our welfare in every respect is vitally affected by the conditions growing out of the war, we are in better a long ways frum being the adposition than any other nation, all things being equal, to give wise formulating the policies upon on as a very old man for he wood which the future security of the be over 475 years of old age."

One wife, whose husband is said to be a \$15,000-a-year-man-not much salary as reckoned by New York standards—ran up a \$10,000 bill at a lady's dressmaking estab-lishment before she departed. When the husband got the bill he sold his car, gave up his apartment and bravely moved into a furnished room. The other day he got the follow

For the first few months those who plunge into debt have a giddy reaction. They are frightened by reaction. They are frightened by the outlook and make all sorts of promises to themselves to refrain from extravagances in the future—but once they get the debt paid it is a different thing.

It was not so bad after all, they argue, and if they paid once they can get out of debt again—and so they plunge deeper than ever.

ADENOIDS AND RUNNING NOSE From somewhere in New England, the place where refinement and the place where refinement and manners are manufactured, comes the news that it is boorish and vulgar to sneeze, or at any rate to sneeze with honest gusto. This pronunciamento, which I am actually reading in the editorial columns of a New England newspaper, will discourage the application of what, Dr. Hickling, a writer in the British Medical Journal, describes as the nassi drill as a means of relieving the ill effects of adenoids. When I sneeze I like to put pep in it, and I feel that the uncouth indulgence has done me no harm; and if I muzzle my sneezes I can't see where any-body has any kick coming.

NEGRO CONFERENCE **ENDS FRIDAY NIGHT**

The session of the South Atlantic District conference was featured yesterday by the annual address by Rev. L. A. Townsley, presiding elder, He emphasized the importance of the ministers being active in informing their congregations of the importance of sanitation and education of their children. The large death-rate of the colored people of America is due to ignorance of laws of hygiene, he declared.

Rev. R. H. Ward, pastor of Aller Temple, A. M. E. church, read the report on the state of the country. This report showed that the number of efficient colored teachers, for public schools in the cities and especially in rural districts; was inadequate. The report showed that this condition can be remedied by the colored people extending aid to the schools.

Revs. J. A. Lindsay and C. G. Gray delivered interesting addresses, on the progress of the agero in America. The conference closed Friday with appropriate exercises.

The jury was out twenty minutes.
Wanderer previously was convicted of the murder of his wife, who was shot to death at the same time as the stranger, and was sentenced to twenty-live years' imprisonment. the stranger, and was sentenced to twenty-live years' imprisonment.

The double murder took place last summer. Wanderer declared that when he came home from a picture show with his wife they met a man' in the vestibule at the entrance to their home. The man opened fire, Wanderer said, and he fired back. The stranger and Wanderer's wife were killed.

For several days Wanderer was looked on as a hero. The police, however, found that the stranger's gun belonged to Wanderer's cousin and that Wanderer had borrowed it a few days before the murders. Wanderer was arrested and signed a confession that he had hired the stranger, whom he termed "a poor boob," to stage a fake hold-up and had killed his wife and the man.

In his first trial, for the murder of his wife and her urborn baby, Wanderer repudiated this confession.

TWO ARE KILLED IN MYSTERIOUS TENNESSEE FRAY

Nashville, Tenn., March 18.—At noon today there had been no development to explain the killing of Thomas Mitchell, 45, respected farmer of Cottontown, Sumner county, as he stood on the porch of his home at 4 o'clock this morning, and equally mysterious is the death of the man found in the Red river road 200 yards from the Mitchell home.

According to news reaching Gal-

home.

According to news reaching Gallatin, Mitchell, as he fell, fired his own gun and this bullet is supposed to have ended the life of one of the automobile party shooting at him, the man's body being subsequently found in the road.

Early this afternoon Gallatin relatives identified the body of the man found in Red river road as Frank Wilkes, Nashville taxicab driver, while Nashville prohibition officers received a report from a driver, while Nashville prohibition officers received a report from a negro named Dan Cannon, who claimed to have driven the automobile figuring in the double tragedy back to Nashville. The negro's story to the officers was that he with two other negroes and Wilkes, white man drove to Cottontown with two other negroes and Wilkes, a white man, drove to Cottontown last night to purchase liquor; that after the sale of the liquor the men who sold it tried to get it back and Wilkes jumped out of the car and the shooting began. He saw Wilkes shot and fall. He and the other negroes jumped out of the car. His story connected Mitchell with the sale of the liquor.

Prohibition officers carried the negro to the scene this afternoon.

A coroner's jury reported that both Mitchell and Wilkes came to their death at the hands of unknown parties.

"If I should go to your board with the evidence I have in my possession, the result would be to weaken rather than strengthen my hand in an effort to place the responsibility for conditions that have existed.

"Since I appeared before your board in the Terry-Howell case, the leading attorney of this gang of bunco men has been elected to membership on the board over my protest and in addition to this a member is serving on the board who openly admits that he was not elected but defles public sentiment in the statement that since he was sworn in he proposes to hold on until the end.

GERMANN PROTEST

GERMANS PROTEST 'POLISH TERRORISM' IN NOTE TO ALLIES

Berlin, March 18 .- Reports of iso-

lated clashes in a number of Upper Silesian districts have caused the German government to protest to the interalled commission in Oppeln against the revival of what it terms "Polish terrorism."

In official quarters it was declared that several outrages were committed in Rybnik district in the last few days, houses having been burned, one man murdered and others beaten, but that news of the incidents had not been made public here in the "fear that it would adversely affect the tide of German voters pouring into the plebiscite zone." For this reason the contents of the government's note of protest, which cited specific instances, has not been made public. Officially it is reported the situation in Silesia generally is quiet, but rumors persist that armed German and Polish forces are gathering on the frontiers in anticipation of fighting. The German plebiscite propaganda organization has put out a statement declaring the Poles have begun agitation for an extension of the allied penalties to Upper Silesia in the event that the Germans win. to the interallied commission in

Herndon Arrives at Crackers' Camp to Look Over Material For Georgia State League Farm

Staff Correspondent of Constitution.

Bay St. Louis, Miss., March 18.— (Special.)-The arrival of Hardin Herndon, manager of the Lindale cinb of the Georgia State league, at the Cracker training camp this merning, is expected to result in the first cut of the squads now undergoing the unlimbering process, and it is believed that the names of players to be sent to Lindale will be announced Saturday.

Herndon was an interested spectator at today's workouts and if a very contract of the contract of the

Herndon was an interested spectator at today's workouts and it is understood that he has asked President Frank for several of the promising recruits. The Lindale pilot will return tomorrow night, but it is doubtful if the players he will receive will accompany him, as the training season for the Georgia State league does not open until April.

The disposition of these recruits is causing no little concern, as the Atlanta squad at present is entirely too large to be carried on the exhibition tour which will start Sunday when the Frankmen meet the Milwaukee outfit at Gulfport.

Frank's Dilemma.

Frank's Dilemma.

Frank's Dilemma.

The expense of keeping them idle in Bay St. Louis, while their more fortunate comrades are invading Louisiana and Texas, would hardly be pleasing to President Frank, and the only plan seems to cut them adrift and let Herndon do the worrying about getting them to report to his Lindale organization.

The coming of Art Ritter, Canadian league star, who is expected to wage a great battle for the keystone position, will add one more Signature to the roster at the Hotel Klock. Ritter was slated to report this afternoon, but he was delayed and will not check in until a late train tonight. Ollie Furhman, picked by the camp followers to be the Crackers' backstopping mainstay during the approaching campaign, has played a couple of seasons with Ritter, and Ollie declares that Art will prove the sensation of the Southern league.

Tight Infield.

The Atlanta infield as it appears on paper will be as tight as it was last year, which means that it will probably be the best in the league. Ritter should be in trim for the exhibition tour and when Bobby Stowe joins the outfit in Lake Charles next week, Charlie Frank will be ready for the gang, girded with a splendid defensive machine and packing enough strength on the offensive to make its sting felt by the competition that will be met. A nine-inning game between the regulars and the Yannigans featured the workouts of Friday, the regulars coming through with the verdict by an 8-to-4 margin; but only after the Yannigans had held them safely for several innings.

Suggs, Wilson and Manners hurled three innings each for the regulars, the pitching burden for the Yannigans being borne by Konemann, former Georgia State league star; Brewer, Mississippl sandlotter, who has made a great impression on Frank and Kauffman, and Lafe Wheat, youngest from the Georgia State. Of the sextet of hurlers, Wilson, Brewer and Manners were rather warmly received by the opposition, Wilson's southpaw slants proving no mastery at all to the regulars, who greeted him with a bombardment of triplets in the first inning he worked, the fourth, and which netted three counters. Manners, who srucceeded Wilson, was very wild, and he regulars succeeded in sending across two runs in the trio of frames he worked. Brewer, a cross-fire demon, was un-

ers, who srucceeded Wilson, was ery wild, and the regulars succeeded in sending across two runs of the trio of frames he worked. In the trio of frames he worked. Brewer, a cross-fire demon, was unable to control his offerings and the Yannigans feasted on the pellets that did cross the pan. Konemann, the "iron man" of the Georgia State league last season, and who is stacking up as the most promising of the pitching recruiting, continued the good work that was started immediately after he arrived at Bay St. Louis, and made the Yannigans look foolish, surrendering but one hit in the three innings he per-

formed, no runners being able to advance further than second base Johnny Suggs, who started for the Yannigans, pitched splendid ball, although a couple of bingles were bunched against him in the inning, giving the regulars first run of the afternoon. their first run of the afternoon. Wheat, who is coming to the front as one of the leading contenders for a slab position, delivered in nice fashion for the regulars, the Yannigans being unable to score until the ninth inning, when three bunched clouts gave them a one-run. A home run by Joe Guyon in the eighth, triples by Kauffman. Fred Smith Bolt and McClellan, the batting of McClellan, Guyon and Brenner were other features of the afternoon.

McClellan Promises Much.

McClellan, a Savannah semi-pro, who started off as the camp comedian, with no one giving him an outside chance for a position, has developed into one of the most promising of the backstop candidates and his work is improving daily. His three hits today ran his, total to six bingles in seven times at bat. This record stretching over the four exhibition games played between the regulars and the Yannigans.

Facing the pitchers ten times, McClellan has drawn two bases on balls and is credited with one sacrifice hit. After hitting safely six times in succession during the past two days, on his seventh trial, the recuit pasted a wicked grounder to Fred Smith and was thrown out at first base, but only after he had missed hanging a double on to his credit sheet, as a slashing wallop to left field went foul by inches. The list of players that will comprise the Cracker roster on the exhibition tour is expected to be announced Saturday, but it is believed that the whole squad will make the jump to Gulfport for the opening game. Charlie Frank was greent at this afternoon's game and asserted that his rookle's were the most promising he had ever laid his eyes on. It is rumored that another pitcher will be available soom for the Frankmen said hurler is to come from the Yankee training camp at Shreveport, with Koneto come from the Yankee training camp at Shrevport, with Kone-mann, Markle, Suggs and perhap-one more of the recruits. want to a attempt to reduce the wages of the miners is not only uncalled for, but it is indefensible and will be resisted by our organization.

"In the first place a reduction in the wages of the miners would not result in any more coal delivery and would do tremendous harm to the industry. Experience has demonstrated that wage reductions in the coal industry benefit no one. Furthermore, the wages now being paid in the coal industry are suf-ficiently low to allow coal to be produced and sold to the consumer t a reasonable rate in comparison to other commodities, and still bring the operators a good profit. It would be an economic mistake to reduce wages, in view of the facts that I have set out."

about both Jake Abel and Larry Avera expecting to win next Tuesday night at the Auditorium by a knockout. Of course one of them is grievously mistaken, unless there happens to be a double knockout like the one that ended the Ad Wolgast-Joe Rivers championship affair several years ago.

But, anyhow, both of them are figuring on kookooing each other so strongly that their managers yesterday started snarling at each other about rules and regulations gov-erning counting when a fighter is

erning counting when a fighter is dropped.

"When Jake drops your boy," said Max Abelson, the southern welterweight champion's manager, to Walk Miller, who handles Avera's affairs, "I don't want any referee taking 20 minutes to count 10 seconds."

"That's one time when you and I are on the same platform," agreed Mr. Miller, "only it's going to be Jake who'll be listening to the count while he's enjoying a rest on the ring floor. I want a 10-second count, no more and no less."

And they started out to get one. And they started out to get one. And they started out to get one. Now each and every referee who works in a ring has his own peculair ideas about what constitutes 10 seconds. To some it means "ten." said rapidly. To others it means a stop-off for breakfast. To avoid any dispute about counting, mechanics have been resorted to.

An automatic timer will be installed in the ring. This machine will not only govern the rounds, but in case of a knockdown, all the timer has to do is to push a button and the automatic gets busy tolling off seconds, ringing a beil as each timer has to do is to push a button and the automatic gets busy toilling off seconds, ringing a beil as each second passes. It's a ring innovation, but it's the goods.

Both Avera and Abel continue hard at their training. Avera is specializing on developing strength and power for a flock of infighting he contemplates doing, while Abel is out on the road each morning, and boxing in the afternoons. Each man is apparently ready to step into the ring right now. "My retirement didn't hurt me a bit," says Jake. "In fact, it did me good. Of course, I didn't give up exercising a good deal each day while I was confining myself strictly to business, but right now I feel like I could step any distance just as fast as I ever did, and I know when I start out Tuesday I'll be hitting harder than I have in months, and it won't be months before Avera finds it out."

"The only fear I have is that I'll go stale. I feel right this very minute and wish the 'battle was tonight," said Avera, wherefore Miller has ordered him to cut down

Pedro Zamorra, Mexican Bandit, Dies in Battle

Mexico City, March 18 .- Pedro Zamorra, for the past ten, years ready to relieve him. one of the most fermidable bandits. The team has been operating along the western coast of Mexico, is dead as a result of wounds received in a recent battle with federal troops near Zemzontla, state of Jalisco. His body was identified yesterday by a number of his followers.

The dead bandit was associated with various revolutionary factions for years. He was first a lieutenant of Villa, after which he joined Zapata, but finally he operated independently in the states of Jalisco, Michoacan and Colima. An extensive area in these states was under his control a long time. At the beginning of the administration of provisional President de la Huerta, the bandit surrendered, but within a few months headed another uprising. Last August he raided the towns of Autian and Quatlan, from which he carried off a number of captives. Among those taken prisoner by Zamorra were seven Americans and several Britselic and the surface of the same and served as shortstopper. Barney Griffin, serve as shortstopper. Barney Griffin, serve into the fray, too, relieving either ish subjects. It was said that sixish subjects. It was said that sixteen girls carried off from Quatlan had committed suicide following their capture by the bandits.
Most of his prisoners were released
voluntarily, and when government
troops pressed the pursuit of the
bandit hotly, he released the rest
after being promised immunity
from arrest.

He announced he intended to follow peaceful pursuits, but, unlike ish subjects. It was said that six-

He announced he intended to fol-low peaceful pursuits, but, unlike his former chieftain, Villa, he was not contented, and several days ago it was reported he was again head-ing a rebellion, and federal troops were sent against him. The bandit were sent against him. The bandit forces were encountered at Zemzontla and Zamorra received fatal wounds. He escaped from the field, but died later. News dispatches received here say the body was taken to Barranca, state of Aguas Callentes, for hurial.

LIKELY TO DROP CHARGE AGAINST CLARA S. HAMON

Ardmore, Okla., March 18.—There probably will be no aftermath to the trial of Clara Smith Hamon, probably will be no aftermath to the trial of Clara Smith Hamon, acquitted yesterday on a charge of having murdered Jake L. Hamon, in the matter of the prosecution on the statutory charge filed against her and Hamon two days after she shot him November 21, last, according to information obtained at the office of the county attorney of Carter county today.

An information charging Frank L. Ketch, Hamon's business manager and now administrator of the Hamon state, with being an accessory after the fact in that he gave Clara \$5,000 and told her to leave Ardmore after the shooting, still was pigeon-holed in the office of James H. Mathers, county attorney, today. It still was undecided whether the information would be filed formally and a warrant for Mr. Ketch's arrest issued. Clara Hamon and her staff of attorneys held a conference this morning but after it no announcement as to her future movement was made.

Oklahoma City, Okla., March 18.—
Governor J. B. A. Robertson today
pressed approval of the conduct
of the prosecution of Clara Smith
Hamon at Ardmore by AttorneyGeneral Freeling.
"When the county attorney became disqualified as a prosecutor,
because he had been retained previously by the defense," said the
governor, "it became my duty to
see that the state was represented
adequately in the trial. For that
reason I directed Attorney-General
Freeling to conduct the prosecution. I am entirely satisfied and
pleased with his handling of the
case.

ROME BANK HEAD, B. H. HUGHES, DIED AT HOME FRIDAY

Rome, Ga., March 18.—(Special.)
The death of B. H. Hughes, Sr., at the age of 69, occurred this morning at 6 o'clock at his home in East Rome. Mr. Hughes had been seriously ill for ten days with pneumonia, and for the past several days his condition had been desperate. He was president of the First National Bank of Rome, one of Rome's leading financial institutions, and one of the oldest banks in Georgia. Besides his wife, who was Miss Sara Park, of Knoxville, Tenn., he leaves seven children, four sons and three daughters. The funeral will be held tomorrow from the First Presyterian church, of which he was a leading member.

TECH HIGH TO Chicago Grand Jury Is Asked To Indict Blackened White Sox Again in Baseball Scandal

Chicago, March 18.—A second investigation into the 1919 world's series, which Chicago White Sox players were charged with throwing to Cincinnati, was started today by State's Attorney Robert E. Crowe, before the Cook county grand jury.

Mr. Crowe told the jurors, in outlining his plans, that he would bring them new evidence which would justify reindictment of the men whose cases were dropped or taken off the court call yesterday

JACKETS TO 6 UMPIRES **PLAY EXPRESS ANNOUNCED TEAM TODAY** BY MARTIN

When Coach Clay sends his Yelof last season's staff of Southern low Jacket nine up against the ball- association umpires, William Brentossers of the American Railway nan, Dan Pfenninger, Hadley Wil-

tossers of the American Railway Express company this afternoon they will doubtless find much stiffer opposition than they encountered in their scrap with the Commodore Feds a week ago. This game is scheduled for 2:30 o'clock on Grant field.

The Yellow Jackets have evinced an unusual ability to hit so far this year. They started off a week ago with a 12-to-4 win over the Feds, Tuesday romped on Boys' High 16 to 0, and then Thursday downed the Tech High aggregation 13 to 0.

DEAD WHITE BABY IN GARBAGE CAN FOUND AT ROME

Rome, Ga. March 18.—(Special.)—A dead white male child was found in a garbage can on Upper Broad street early yesterday morning by the garbage collectors, it is learned. A coroner's inquest disclosed that the child had been born alive and had lived some time. The police and sheriff's office are investigating but thus far have discovered no clue to lead to the discovery of whose was the child or who placed it in the garbage can.

Traders Pounding Stocks To Cover Short Buying

BY R. L. BARNUM

New York, March 18.-In general prices were again higher today, some specialties being particularly strong. There were numerous cross-currents, however, giving the impression that traders were pounding certain stocks, in order to give the market an unsettled appearance, and under this cover were buying in short contracts put out at higher prices. Oils were particularly strong again, on reports of increased demand due to the open weather, from the motor trade. Steels were also higher as were the equipments.

There was also a brisk recovery in Atlantic Gulf which at one time sold 4 points above the low of the morning. This, however, was due entirely to short covering: It is officially stated that the company is negotiating to sell its oil lands and its tanker fleet. This might prevent the necessity of new financing, but such negotiations

are still being carried on.

Some brokers are advising their customers to act cautiously in making commitments in this stock. One sent out a message today that every one is bearish on A. G. W. I. and are predicting a price of \$20 a share for it. When it was \$150 no one would go short. Now no one can be induced to buy. But by this it does not mean one should turn bullish. It may be true that the stock has discounted all that can now be seen on the surface, but in view of the fact that everyone was bullish when it was high, and the stock went down, it would be good to be careful now that everyone is bearish about 150 points lower. The broker in question advised his customers not to press the short side at these prices.

The weakness in tobacco products during the last few days has been due to reports that the directors will postpone action on the common dividend for one month and also to reports that the stockolders will be asked to approve an increase in the capital stock by 20,000 shares of preferred and 50,000 shares of common stock. Whether or not this stock is to be issued was not learned so far, nor was information obtainable as to the purpose of the issue. At the present time the company is paying its common dividend in scrip.

Two more dividend changes were announced today. The Mc-

Andrews & Forbes company has reduced its dividend, while the Howe Sound company, a mining company whose stock is traded in on the outside market, entirely passed the dividend.

Much interest centered on the advance of 28 per cent in local telephone rates granted by the public service commission. This was taken to forecast a more lenient policy in regard to rates charged by local public utilities and the passing of the traction bill at Albany is Stock Market Repeats Unalso expected to help the local traction lines, the shares of which have been firm throughout the week.

The automobile and rubber tire stocks continue to attract much interest in stock market circles, and the opinion prevails that these two industries have turned the corner for the better. At current prices the automobile stocks are up from 3 to 24 points from the low levels of January, the extreme gains being in Studebaker and Chandler. In some commission houses the statements were made that the remarks made by President Erskine, of the Studebaker, in his annual report, read just like a market letter. Since the report was issued the stock has advanced about 10 points. Reports from the west indicate increased activity in the industry.

The Union Bag & Paper company for 1920 reports earnings equal gains, while other issues of equal

REVIEWS OF WEEK

New York, March 18.—The cotton market has been quiet but generally steady during the past week with the price of May deliveries here ranging between 11.31 and 12.08. Expressions of opinion in the street and on the floor of the exchange have indicated a more hopeful or optimistic view of the price outlook, but buying has been held in check by the continued depression reported in the goods market and apprehensions that further spot liquidation may occur hefore the new crop planting has been completely financed. Comparatively little pressure of spot offerings has been reported during the week and a little more demand has been reflected in the sales at various points in the south but; according to local brokers, this business has represented the filling out of March commitments rather than any fresh demand from either domestic spinaers or exporters.

At the same time more favorable reports have recently been received from Liverpool indicating an im-

At the same time more lavorable reports have recently been received from Liverpool indicating an improved tone in Manchester, with necreased inquiries from India. Some trade advices state that Lancashire trade advices state that Lancashire trades. rade advices state that Lancashire spinners, in instances at least, are getting under contract and have been buying futures in Liverpool as a hedge against the requirements. These reports, combined with the prospects for reduced acreage, the hope of easier money and the steadler ruling of southern spot narkets since the beginning of this nonth. seemed largely responsible for the better tone of sentiment. certain and Confusing Course, With Few Leaders Registering Gains.

New York, March 18 .- For the lost part today's stock market repeated its uncertain and confusing course of the previous session. A The Union Bag & Paper company for 1920 reports earnings equal to \$23.30 a share on the capital stock as compared with \$16.81 a share in 1919. The annual report of the International Mercantile Marine company is not ready yet but latest estimates indicate that earnings will be better than were first expected. Following the meeting of the board of directors it was stated that "the net earnings for the year 1920 after payment of interest on bonds and allowances for depreciation will probably slightly exceed the estimate made in November, 1920, and the preferred stock.

"It is impossible to make any forecast of 1921 earnings," it was further stated, "for, due to the reduction in exports, the freight situation is very unsatisfactory, but the passenger situation, although it is much disturbed by the immigration complications, is encouraging."

A petition has been circulated on the New York stock exchange for an extra holiday on Saturday between Good Friday and Easter.

The advance of % cent in the price of sugar announced by the Cuban sugar commission, has caused local refiners to advance their prices the same amount. The commission's new price will be 51-4 cents as against 4% when the commission was first formed.

Tron Trade Review says:
Reduced prices for steel quoted by the independent producers, added to the approach of open weather conditions, appear to be having, more effect in stimulating the placing of new business. Miscellaneous tonnage, though far from being in satisfactory volume, is being released by buyers with less reductance as compared with the stagnant condition of trade in recent weeks. How much of this represents clear addition to the total tonnage of the market, however, cannot be said with assurance, in view of the continued contraction of production by steel corporation mills under their higher price policy.

poration mills under their higher price policy.

The National Tube company, which has been running full, is being forced to make some curtailment. Other steel corporation subsidiaries show a further loss in operations. The Carnegie Steel company has blown out three more blast furnaces, reducing its active list to 28 out of 59. Its ingot output is at 45 per cent this week, and this is expected to drop to 25 per cent shortly. Independent company operations are fluctuating, but, on the whole, show some gain. In exceptional cases they have been pushed up above 50 per cent. Sheet schedules are heavier at Chicago, Middletown. Ohio; Canton, Ohio, and other points, but are not so good in the Mahoning valley. In the latter district, however, 19 of 51 independent open-hearth furnaces are in production this week, which is a better showing.

With merchant pig iron production down to one-third of the recent high point, close buyers continue to follow the situation more carefully. Stocks of iron for sale in the country, according to latest reports, are approximately \$70,000 tons, an increase of something like 100,000 tons the past month. Signs of a moderate revival of the automobile industry are more numerous in the market. But Imports Gain Washington, March 18.—American exports showed a further decline during February while imports for that month increased slightly, according to monthly trade figures made public today by the department of commerce.

Exports for February aggregated \$489,000,000 as compared with \$655,000,000 in January. Imports last month totalled \$215,000,000 against \$210,000,000 in January.

Secretary Hoover said that the January figures were probably too high as the result of a lap over from the December statistics, but added that he thought the department's report for March would be accurate.

For the eight months ended with February exports totalled \$5.127,-000,000 compared with \$5.230,000,000 for the same period in 1920, while imports for the eight months ending with February totalled \$2.577,-000,000 as against \$3.235,000,000 for the corresponding period of last year.

Gold exports for February tomoderate revival of the automobile industry are more numerous in the market. In various cases, material and castings on suspended order with mills and foundries are being directed forward. As yet, little new buying has originated from this source, but it is reported the Ford, Dodge and Studebaker companies new are preparing large insuities.

source, but it is reported the Ford. Dodge and Studebaker companies now are preparing large inquiries to be issued soon. Best-informed circles continue to emphasize that a 40 per cent automobile output for the year is as much as can be expected. Japan again is appearing as a buyer of American steel. It placed 1.800 tons of black sheets in the Youngstown territory. A 2.000-ton sheet sale to the Orient also is reported at Chicago. A 3.100-ton bank building at Yokohama has been awarded and 5,000 tons of pipe has been closed. Belgian steel bars have been sold on the Pacific coast at 2.65c, or far below the domestic price. The composite iron and steel market average of The Iron Trade Review is little changed this week. It is 345.25, against \$45.53 last week and \$47.10 four weeks ago.

year.

Gold exports for February totalled \$1,000,000 against \$3,000,000 in January, while imports aggregated \$44,000,000 last month compared with \$33,000,000 the previous month.

Gold exports for the eight months ended with February aggregated \$131,000,000 compared with \$362,000,000 for the eight months ended with February, 1920, while imports of gold for the eight months ended with February aggregated \$337,000,000 against \$43,000,000 for the corresponding period of 1920. New York, March 18.—Bradstreet's to morrow will say:

Excellent spring weather and the near approach of Easter has brightened up jobbing and retail trade. The former sends about the best reports since late summer of 1920 and the latter the best since the pre-Christmas rush of last year. Then, too, collections are a shade better and the automobile and building and kindred trades have shown more life and have bought more freely of materials. Trade as a twhole, in fact, is about fully fair, best reports coming from the northener half of the country.

But when this is said it must also be conceded that industry still lars, that employment, though more widely diffused, still lacks heavily of affording full occupation for millions of workers, that signs of backwardness or reaction are com-

Liberal Offerings Near End of Session Find Market Bare of Support. D. Corn and Oats Follow.

Chicago, March 18.—Bearish sentiment due to general economic conditions proved more than an offset in the wheat market today for green bug crop damage reports. The market closed heavy, 2 1-40 13 1-3 cents pet lower, with March \$1.54 1-20.54 3-4, and May \$1.45 10 (0.145 1-2; corn lost 1-2 to 3-407-8, and oats 1-401-2 to 5-8 cents. In provisions there were grains varying from 7 1-2 to 35 cents.

At first wheat bulls made considerable progress, many traders being impressed by authoritative announcement that the green bug pest had invaded Kansas, the banner wheat state of the country. A big eastern short was conspicuous in the buying, but there seemed to be no difficulty in filling the demand. When this fact became apparent commission houses turned largely to the selling side, putting special stress on the industrial outlook, especially the overwhelming majority for a strike in the meat packing industry if the federal parley fails. Toward the end of the day liberal offerings from a house with Omaha connections found the market bare of support and with no export business in sight and with predictions current that shipments from Canada into the United States would soon be greatly enlarged, the finish was at the lowest level of the session.

Corn and oats weakened with wheat. Trade was light.

MARKET SLIDES OFF AS DEMAND IS FILLED

AS DEMAND IS FILLED

New Orleans, March 18.—Except for a momentary advance on the first call the cotton market today was depressed with the closing prices at the lowest. Depressions were not wide and there were times when the market made a plain show of having resistance of its own. Heaviest selling came in the late trading, mainly because of the small mill takings for the week. 176,000 bales against 220,000 this week last year and 123,000 two years ago. The close was at net losses of 16 to 18 points. May closed at 11.20.

Opening prices were higher in sympathy with a better Liverpool than due, but after advances of b to 8 points the demand was filled up and the market then slid off under scattered offerings. For a while straddling and hedging operations appeared to be the source of much of the selling, but selling became general following messages from Fall River estimating the week's sales of print cloths in that market at only 55,000 pleces. The trade recalled that last week they were considered small when they were estimated at 60,000 pleces. There were several recoveries to about the level of yesterday's close during the day, but at no time was there any sustained strength and the early prices, with May at 11.47 remained the highest. In the late trading there was talk of further unfavorable private advices from Liverpool which increased the pressure on the market.

SPOTS IN NEW ORLEANS. New Orleans, March 18.—Spo cotton steady and unchanged. Sale on the spot, 435 bales; to arrive 1,040. Low middling, 8.25; mid-dling, 11.00; good middling, 12.75 Receipts, 2,717; stock, 410,757.

PROFESSIONAL VIEWS ON COTTON SITUATION

New Orleans, March 18.—(Special.)—The shore encouraging foreign political and trade advices appear to be offset for the present by unsatisfactory conditions in the cotton cartainess is situation in America, as domestic goods markets are reported quiet and rather weak for want of a better demand and there is talk of southern mills resorting to curtailment again unless business improves. However, rumors concerning the probability of some American mills closing down may be purely propagands, as the Easter period is usually made use of to close mills for the purpose of cleaning machinery, not only in the United States, but also in Europe.

Byinners' takings of American cotton by the world continue to run behind last season, for the past week 176,000 against 220,000 bales against 9,40,000, reducing the present basis of takings for the whole season to only 10,162,000 bales compared with 12,886,000 for whole of last season. By considering these comparatives farmers of the south will find it to their interest to abide by the Memphis convention program for a reduction in acreage this year sufficient to provide only a half crop for next season. H. & B. BEER.

atreet houses, possibly for investment. Reports from the trade continue very dul, with no signs of immediate activity, but the feeling is that with the encoming crop and the possibility of reduction in acreage the market should do better.

HUBBARD BROS. & CO.

New York, March 18.—(Special.)—More advices of further southern mill curtailment and closing of many Lancashire, England, mills from today until April 4 caused liquidation of long contracts bought during the past few days. The general business continues small and the fluctuations are within a narrow range. No speculative operations are noticeable on either side because of uncertainty as to the next movement of prices. We are of the judgment that offerings will continue to increase on good upturus.

FACE THILLVE

Whether or not Clint Mathis, charged with the murder of Lewis Kingey, late Summerville mail currier. Will be tried in this county or is granted a change of venue, will be argued next Tuesday morning at 9 o'clock before Judge Wright at Summerville. Mathis attorneys haye asked for a change of venue, believing, they say, that he cannot be given a fair trial in this county, and, if this is sustained. Judge Wright states the case will so trial probably in Walker county sometime next week.

It is believed, however, that Mathis can be given a fair trial in this given him. The indictment charging murder was returned against Mathis by the grand jury in session this week and when the case was called Thursday the state announced ready, but the defense asked for more time to prepare their case.

Judge Wright ordered Mathis brought from Atlanta Friday morning, but later in the day rescinded the order. Court adjourned this afternon, but the traverse jurors were beld subject to recall if it is decided to try the Mathis case in this county.

WHAT ATLANTA **NEEDS**

More than a big bond issue, or modern school buildings, or parks, or paved streets; more than a revival of business, Atlanta needs

A REVIVAL OF RELIGION.

A revival of the religion that makes men honest, and women virtuous; that promotes good will among all classes; that secures a square deal for everybody, and inspires high standards of civic righteousness.

A revival of the religion that saves men from sin and gives them power, safety and happiness; that creates the right environment in which to raise our boys and girls.

ATLANTA NEEDS A **REVIVAL**

of that sort of religion more than all else. For this revival the Protestant churches of Atlanta are praying and planning. During the period

MARCH 27--APRIL 17 **EVANGELISTIC SERVICES**

will be in progress in more than 80 Protestant churches. A city-wide survey has been made to secure desired data, and neighborhood prayer meetings are being held weekly.

It is one of the most significant religious campaigns ever conducted in Atlanta.

Remember the dates and plan to attend the church of your choice.

GENERAL EVANGELISTIC CAMPAIGN COMMITTEE. RICHARD ORME FLINN,

Chairman.

Macon, Ga., March 18.—The gov-ernment, in trial of the case against 58 men of 64 indicted by a federal grand jury on charges of conspiracy to rob the American Railway press company of merchandise in transit, valued at more than \$1,-000,000, will base its case principally on the testimony to be given by W. A. Hughes, former express ssenger, who took the stand late yesterday, it was learned today.

It was first indicated that Hughes would be on the stand about four days, but indications today were that he would be under examina-tion and cross-examination for a

week or more.

When on the witness stand yesterday, Hughes named nearly all of the defendants as persons with whom he, himself, conspired, according to his testimony, to rob the ex-

whom he, himself, conspired, according to his testimony, to rob the express company.

On the witness stand today Hughes told first of an alleged transaction in which he claimed to have sold a shotgun, which he stole from the express company, to Henry Barlow, one of the detendants, for \$20. He identified a shotgun brought in the courtroom as the one on which his testimony was based. He named J. A. Bradshaw, a defendant, as being one of those to whom he talked concerning the alleged conspiracy, and other defendants as those with whom he said he had transactione. Hughes declared that he and W. E. Brunner, a defendant, stole three barrels of fish and sold them to T. A. Lovelace, Atlanta merchant, for \$33.42. He said the check in payment was made out to W. M. Anderson, and indorsed by himself as W. W. M. Anderson, and indorsed by himself as W. W. M. Anderson, sharrels of oranges, barrels and barrels of fish, an art square, pecans, harness, frying size chickens, butter, eggs and neckties played an important part in the testimony of Hughes, when he related today transactions that had taken place hetween himself and twenty of the fifty-three defendants on trial here charged with conspiracy to rob the American Railway Express company of \$1,000,000.

Hughes began with the name of A. G. Johnson, citing theft after theft that he and the defendants had committed

court, and went through the name of A. G. Johnson, citing theft after theft that he and the defendants had committed.

When court reconvenes Monday morning Hughes will continue his direct testimony until he completes his transactions with all fifty-one defendants, with whom he claims to have had dealings. At the request of the attorneys for the government and for defense, Judge Evans announced that there would be no court tomorrow. The theft of baggage shipments was brought out in the testimony today for the first time. first time.

Whisky Found.

G. L. Smith, baggage master, found a trunk of whisky in his baggage on one occasion," the witness related, "We pulled it into my express car and while we were examining it Captain J. N. Smith came in. He said: "We don't catch hauls like this every day. We three will do the work."

Five Suspects Held.

Memphis, Tenn., March 18.—Two white men and three negroes were being detained by the police here today pending investigation in connection with the robbery early yesterday of the safety deposit vault of the Commercial Trust and Savings bank at Mason, Tenn., of approximately \$25,000 of Liberty bonds and other valuables.

VISITS MOHAWK TRIBE PLANS INCREASE

Chief Beavers Authorized by Board to Place Members of Department in Plainclothes.

Plans for expansion of the Atlanta police system to take care of the admitted crime wave now sweeping Atlanta were begun by the board of police commissioners at a special meeting Friday night, when it was decided to petition council for an immediate increase in the strength of the force of 25 For Increase in Force.

It was at this juncture that Mr. Stradley offered his motion to request an increase in the force by 25 men.

"It is undoubtedly true that the city is in the grip of an unusual wave of crime," he said, "and it is also true that we are not making our police force keep pace, in numbers, with the growth of our city. I move, therefore, that we ask the mayor and general council for an increase of 25 men in the strength of the force, the increase to be in the force, the increase to be in the mayor.

"I'll second that motion myself," said the mayor.

The rest of the session was consumed with the handling of routine matters, chiefly in the trials of certain officers for minor offenses in the execution of their duty and in the investigation of matters brought before the commissioners.

Resolution by King. in the strength of the force of 25 men, and when resolutions were passed authorizing Chief James L. passed authorizing Chief James L. Beaver to put as many men in plain clothes to work various sections of the city as he could place without impairing the efficiency of the force.

Commissioner Andy King introduced the resolution asking for the duced the resolution asking for the plain clothes men, pointing out that men not uniformed had been able to make more arrests and better aid in the stamping out of crime than had men in uniform. Commissioner W. C. Stradley introduced the measure which provides for petitioning the mayor and general council for an immediate increase of the force by 25 men. The motion of Mr. Stradley was seconded by the mayor, and it is believed that the appropriation for their services will be obtained at the next meeting of council.

Signal Towers Planned.

Signal Towers Planned. Another step in the effort to improve Atlanta's police service was the passage of the motion of Chief Beavers to ask city council to appropriate money for the installation of signal towers at congested downtown corners, in order to facilitate the handling of traffic. A committee of three, chairmaned by John S. McClelland, was appointed to handle this phase.

by the Mississippi railroad commission, and petitioning the commission, and petitioning the commission for a rehearing of the case.
Resolutions adopted by the meeting were presented the railroad
commission by a committee following the meeting and a decision was
promised in a few days.
A resolution was also passed advising telephone subscribers to tender the old rate when bills were
presented and in case such payments are refused to order their
telephones taken out. This cigarette gives out a medicated vapor, which is inhaled and exhaled through lips or nose, with real contentment.

Not only does the smoker derive more pleasure, but there is a valuable remedial benefit. These cigarettes are an aid in warding off colds and give relief in throat irritations, hoarseness, catarrh of the head or throat, often stopping those roaring, buzzing or other head noises, of which colds and catarrh are the cause.

Dr. Blosser's Cigarettes contain no cubebs, tobacco or habit-forming drugs and will not produce nerv-

originally introduced, asked that fifty of the force's best men be put into plain clothes, 25 on the north side and 25 on the south side, so that they could better perform their duties in the suppression of crime, which the resolution said was too prevalent. Upon suggestion of Commissioner McClelland, it was suggested that the resolution be amended so as to allow Chief Beavers to use his discretion in the number of men he assigned to this duty, on the premise that specification of a certain number of men might impair the force's efficiency. About 25 men who have already applied for positions on the police force appeared before the commission Friday night and were briefly examined by the board members, who declared themselves highly gratified at the class of men who were applying for the places. In view of the present prevalence of crime, and in view of the fact that there are several vacancies on the force at present, the chief was authorized to hold an examination for entrants at an early date, although it is almost six months before a regular examination is scheduled. evading the draft but who did not actually do so, the adjutant general announced, may escape the odium of being publicly branded as deserters unjustly by communicating all the facts of the case to him twithout delay.

The final check of the draft evader lists is now being completed by former members of the local draft boards. By the end of the month the war department expects to begin making the lists public through the newspapers and by furnishing copies to city, state and federal police, detective agencies, the American Legion and other patriotic societies.

In addition Secretary Weeks will ask congress when it reconvenes to provide funds to enable the war department to pay a reward of \$50 to any person who delivers to the military authorities a deserter from the draft. Funds on hand now do not permit paying the full reward.

The department's list of draft evaders, which as originally reported to the provost marshal general, numbered nearly 490,000 mames, has been reduced by careful checking and by the apprehension of evaders to approximately lated by the adjutant general's office.

The resolution offered by King, concerning the plain clothes officers which he advised, follows:

Be it resolved by the board of poice commissioners as follows:

That whereas, a great crime wave is sweeping over the country and especially the city of Atlanta; and
Whereas, by experience heretofore in detrilling patrolimen to work in plain clothes, we have successfully combated crime to a greater extent than we have in uniform; therefore, be it

Resolved, That the chief of police be directed to detail as many men as in the discretion of the chief can be placed to work in citizens' clothes on the north side of the city, and as many men as in the discretion of the chief can be placed to work in citizens' clothes on the south side of the city until the further order of the board.

draft districts are now being tabu-lated by the adjutant general's oflated by the adjutant general's office.

Of the list of nearly half a million names originally compiled it
was later found that more than
151,000 had actually served honorably in the armed forces of this
country, or the allies. By July 15,
1919, nearly 164,000 of those on the
original list had been apprehended
by the military or civil athorities,
leaving an actual balance on that
date of about 174,000 names. Since
then approximately 13,000 more
names have been eliminated on the

Washington, March 18 .- The federal government today lost an im-portant, income tax suit when the United States court of claims held that every estate, the net amount of which exceeds \$50,000 and which has been, or is hereafter, compelled to pay the federal estates tax, is entitled to deduct the amount so paid from its income tax return. The effect of the decision, should

t be sustained by the supreme court, to which the government government will not only be com pe led to refund all taxes already collected from estates under such circumstances, but will be unable to collect similar amounts from es tates in the future. The court awarded a judgment for

Woodward in a suit to reverse the action of the commissioner of internal revenue in refusing to allow as a deduction under the income tax law the sum of \$469,834 paid by the executors as federal estates tax.

The decision in the case was based on the construction of Section 214 of the revenue act of 1918, which provides that "in computing the net income there shall be allowed as deductions taxes paid or accrued with-

provides that "in computing the net income there shall be allowed as deductions taxes paid or accrued within the taxable year imposed by the authority of the United States except income, war profits and excess profits taxes," the construction of the commissioner of internal revelue being that the amount paid under the estates tax law was not a tax which could be deducted, but a "toll taken from the property transferred."

Judge Downey, in discussing the position taken by the commissioner of internal revenue, said:

"We are, in effect, asked to construct the statute so as to nullify one of its plain provisions. We do not feel that we are justified in adding another exception to those provided for in the statute. If congress intended that the estate tax should not be deducted in determining the net income it would have said so. We are not unmindful of the importance of this holding and of its possible effect on revenues and the public treasury, but we cannot conclude that such matters should be in any wise controlling."

A NORTH SIDE APARTMENT AS A HOME

On a prominent North Side thoroughfare we have a two-story apartment house, having two apartments on each floor. The lot is a corner and on either side are permanent improvements, thus the light and air that the building now has is permanent. Each apartment has six rooms, consisting of a large living room, which opens on a nice porch; three bed rooms dining room, pantry, kitchen and bath. The rooms are large and all have closets.

The building is in excellent condition and is heated by a new Hart and Crouse down draft, steam furnace. The rent is \$112.50 per month each, or \$5,400.00 per year. The expenses last year were about \$1,300.00. The price is \$30,000.00, and there is no loan. FORREST & GEORGE ADAIR
